Frigidaire® Wall Air Conditioner FFTA1033S2 Cool Only, 10,000 BTU

A thermostat located on your air conditioner's remote control precisely maintains preset room temperature, so you will remain comfortable at all times. Our antibacterial filter reduces bacteria, room odors and other airborne particles for a cool comfortable environment. Notifies you when your filter needs to be cleaned. Features three different fan speeds, for more cooling flexibility.

Warning:

Avoid fire hazard or electric shock. Do not use an extension cord or an adaptor plug. Do not remove any prong from the power cord.
